EXECUTIVE SUMMARY

Product strategy and design transformation professional with 10+ years of experience across Enterprise SaaS, FinTech, mortgage and lending, procurement, GovTech, media, AdTech, MarTech and recruitment technology. Career progression from UX/UI craft into product discovery, business problem framing, workflow transformation, solution strategy and cross-functional influence. Combines systems thinking, product thinking and human-centered design with Human-Computer Interaction (HCI), Artificial Intelligence Experience (AIX) and Machine Learning UX (MLUX) knowledge. Experienced in translating complex business, user, operational and technical constraints into scalable product direction, data-driven platforms and customer experiences.

STRATEGIC VALUE PROPOSITION

- Problem Framing & Product Strategy - translating ambiguity, business goals, user needs and operational constraints into product opportunities and solution direction.
- Transformation & Systems Thinking - simplifying complex workflows, service journeys and enterprise operating models into scalable digital experiences.
- AI-Native Experience Design - Human-Computer Interaction (HCI), Artificial Intelligence Experience (AIX), Machine Learning UX (MLUX), human-centered AI, voice, computer vision and AI ethics.
- Data, Marketing & Growth Platforms - audience intelligence, customer data, campaign management, monetisation, behaviour analytics, customer engagement and marketing technology collaboration.
- Consulting & Stakeholder Influence - discovery sessions, workshops, roadmap conversations, product/engineering partnership and executive stakeholder communication.

CORE STRATEGIC CAPABILITIES

- **Strategy & Transformation:** Business Problem Framing, Product Strategy, Product Discovery, Solution Strategy, Service Design, Systems Thinking, Product Thinking, Digital Transformation, Workflow Transformation, Product Vision, Roadmap Definition
- **AI / ML / HCI:** Artificial Intelligence Experience (AIX), Machine Learning UX (MLUX), Human-Computer Interaction (HCI), Human-Centered AI, AI Experience Design, Voice Interfaces, Computer Vision, Machine Learning, Autonomous Vehicle Interfaces, AI Ethics & Data Privacy
- **Consulting & Collaboration:** Stakeholder Management, Stakeholder Facilitation, Discovery Workshops, Ideation Workshops, Design Reviews, Cross-Functional Leadership, Product & Engineering Partnership, Executive Communication
- **Product & Experience:** Enterprise UX, UX Architecture, Information Architecture, User Research, Journey Mapping, Interaction Design, Prototyping, Design Systems, Accessibility / WCAG, Usability Testing, Zero-to-One Product Development
- **Data / Marketing / Growth:** Data-Driven Platforms, Audience Intelligence, Customer Data Platforms, Customer Segmentation, Campaign Management, Omnichannel Marketing Experience, Customer Engagement, Behaviour Analytics, Growth Experimentation, Conversion Optimisation, Monetisation
- **Technical Fluency:** Figma, FigJam, Miro, Jira, Confluence, Azure DevOps, React, Next.js, JavaScript, HTML5, CSS3, REST API-aware UI, JSON, PHP, MySQL, Google Analytics, Hotjar, Microsoft Clarity, ChatGPT, Claude, Gemini, Cursor

PRODUCT MODELS & INDUSTRY DOMAINS

- **Product models:** B2B, B2C, B2B2C, SaaS, Marketplace / P2P, D2C
- **Industry domains:** FinTech, Mortgage Technology, Procurement, GovTech, Media, AdTech, MarTech, Recruitment Technology
- **Platform patterns:** Enterprise workflows, operational systems, data-driven dashboards, customer data and audience intelligence platforms, campaign and monetisation systems

PROFESSIONAL EXPERIENCE

HOMELOC SOLUTIONS LLP – Lead Product Design Consultant | Apr 2024 – May 2026

- Led product strategy and end-to-end design for US mortgage and lending platforms, partnering with Product, Engineering and business stakeholders to shape roadmap priorities and scalable customer experiences.
- Framed complex borrower and operational problems across origination, underwriting, onboarding, servicing and lending operations; translated requirements into journeys, workflows and solution direction.
- Facilitated discovery, product-vision and design-review conversations, aligning business objectives, user needs, operational constraints and implementation realities.
- Mapped end-to-end customer and operational journeys and drove workflow optimisation; an implemented underwriting workflow improvement reduced decision time by 37%.
- Established reusable design standards and scalable interaction patterns across customer and operational experiences; collaborated with teams working across AWS and Azure ecosystems.

COMPUTECH CORPORATION – Sr UX Designer | Mar 2023 – Mar 2024

- Led UX strategy and product design for CashTrax and DiversityTrax enterprise platforms spanning procurement, supplier diversity, compliance, spend visibility and reconciliation.
- Conducted stakeholder discovery and translated complex business requirements into service experiences, supplier onboarding workflows, reporting systems and operational dashboards.
- Structured role-based information architecture and workflows for enterprise users, balancing business process requirements with usability and scalability.
- Worked closely with CEO, Product Managers and Engineering teams to align business goals, product priorities and delivery constraints.

VISUAL IT SOLUTION – Sr UX Designer | Sep 2022 – Mar 2023

- Contributed to digital transformation initiatives for government and public-sector platforms, including ePragathi and citizen-service ecosystems.
- Designed citizen-facing and administrative workflows, simplifying complex service processes through information architecture, process mapping and responsive interaction design.
- Applied accessibility-focused design to improve service usability for diverse public audiences and collaborated with business analysts, architects and engineering teams.
- Produced process flows, wireframes, prototypes and production-ready interfaces.

GAIAN SOLUTION – Sr UX Designer | Oct 2021 – Aug 2022

- Designed enterprise broadcasting, television technology and media monetisation experiences supporting digital content distribution and audience engagement.
- Designed content-management workflows, operational dashboards and scalable interaction models for complex media ecosystems.
- Contributed to ATSC 3.0-related product initiatives and partnered with Engineering on next-generation broadcasting experiences.
- Worked across advertising workflows, reporting dashboards and audience-engagement experiences.

WAY2NEWS INTERACTIVE PVT. LTD – Sr UI/UX Designer | May 2018 – Jun 2021

- Worked across Way2News, AudiencePlay, AudiencePrime, DigitalKites and TheTasteCompany across consumer media, AdTech, MarTech, audience intelligence and customer engagement products.
- Designed mobile-first content discovery and engagement experiences alongside enterprise interfaces for customer segmentation, campaign management, audience intelligence and monetisation.
- Supported data-driven platform experiences using audience insights, behaviour analytics and reporting to improve retention, engagement and platform adoption.
- Collaborated with product, editorial, marketing and engineering teams across customer engagement and campaign experience initiatives.

NITYA SOFTWARE INDIA PVT. LTD – UI/UX Designer | Jan 2016 – May 2018

- Designed recruitment technology, communication products, enterprise web applications and client-facing digital solutions including JobsNProfiles and VioTalk.
- Created wireframes, information architecture and responsive product experiences and collaborated with development teams through front-end implementation.
- Supported branding, marketing websites and digital product initiatives using WordPress, Joomla, PHP and MySQL.
