Senior Product Designer | Technical UX Architecture & Enterprise Systems

Location: Bengaluru, Karnataka

Mobile: +91 7382328066

Email: [ajaykumarmyakala@outlook.com](mailto:ajaykumarmyakala@outlook.com)

Portfolio: [AJAYKUMARMYAKALA](#)

## Professional Summary

Senior Product Designer with 10 years of experience transforming complex B2B SaaS, FinTech, and enterprise platforms into clear, intuitive user experiences. I specialize in bridging the gap between product strategy and engineering ensuring that designs are not only visually engaging but technically scalable and fully accessible (WCAG 2.2). I thrive in collaborative environments, working closely with developers and stakeholders to solve real business problems, build robust design systems, and deliver products that make sense for the end user.

## Core Competencies

- **UX Architecture:** Zero-to-One Product Strategy, Progressive Disclosure, Systemic UX Auditing, Complex Information Architecture (IA), Dual-Track Agile
- **Product Strategy:** End-to-End Journey Mapping, OKR Definition, User Research & Analytics Integration, Business Requirement Translation.
- **Visual Design & UI:** High-Fidelity UI Design, Interactive Prototyping, Advanced Figma Component Libraries, Interaction Models, Data Visualization.
- **SAP Fiori & Domain Expertise:** SAP Fiori UX Design, SAP Fiori Design Guidelines, B2B Enterprise SaaS, FinTech Ecosystems, Complex Workflow Automation.
- **DesignOps & Governance:** WCAG 2.2 AA Accessibility Standards, HTML/CSS Feasibility Analysis, Design Debt Mitigation, Usability Validation, SOC 2 Compliant UX Flows.

## Experience

**Homeloc Solutions LLP** - Sr Product Designer | Technical UX Architecture

Mar 2024 - Mar 2026

- Defined the end-to-end UX strategy for a complex digital mortgage ecosystem serving borrowers, lenders, and operational teams.
- Designed high-fidelity mockups and interactive prototypes, translating complex workflows into a clean, visually engaging, and highly intuitive user interface.
- Engineered a zero-to-one progressive disclosure pipeline grounded in SOC 2 compliance, decoupling rate exploration from strict authentication.
- Acted as a core strategic partner across product and engineering squads, ensuring design solutions directly impacted adoption and retention metrics.

**Computech Business Solutions Pvt. Ltd** - Sr UI/UX Designer

Mar 2023 - Mar 2024

- Architected DiversityTrax, an end-to-end B2B ESG analytics platform enabling Fortune 500 enterprises to track Tier-1 and Tier-2 diverse supplier spend.
- Led the conceptualization and design of end-to-end user experiences based strictly on SAP Fiori Design Guidelines, transforming fragmented legacy databases into a harmonized, tokenized React SPA.
- Facilitated design framing workshops with business stakeholders to align complex data analytics with intuitive user journeys.
- Built and governed an advanced Figma component library to drive strict visual consistency and ensure pixel-perfect developer handoff across the platform.

**Visual IT Solutions Pvt.Ltd** - Sr UI/UX Designer

Sep 2022 - Mar 2023

- Elevated the visual design language and usability of civic service portals, balancing strict WCAG AA compliance with modern, intuitive interface design.
- Restructured complex administrative workflows to streamline internal operations and support high-scale citizen engagement.

**Gaian Solutions Pvt.Ltd** - Sr UI/UX Designer

Oct 2021 - Aug 2022

- Spearheaded UX architecture for large-scale enterprise platforms, designing intuitive user journeys that resolved severe operational bottlenecks.
- Developed high-traffic, WCAG-accessible UX patterns, actively mitigating enterprise compliance risks and establishing a foundation for scalable design operations.

**Way2news Interactive Pvt.Ltd** - UI/UX Designer

May 2018 - Jun 2021

- Re-architected India's highest-scaling hyper-local news platform to resolve severe content fatigue and banner blindness.
- Engineered a vernacular-first algorithmic discovery loop with variable-height native ad cards and infinite scroll (React Native).

**Nitya Software India Pvt.Ltd** - UI/UX Designer

Jan 2016 - May 2018

- Optimized recruiter and candidate lifecycle workflows by architecting a scalable job portal platform.
- Decreased candidate drop-off rates by 34% by entirely rebuilding the search, filtering, and profile management architecture.
